## What makes Pachou different?

**Pachou is a personal webmaster** offering individualized service. We are ideal for the business or individual who has a complicated website and needs high-quality hosting and web development. We are also the choice of those who may have a simple website, but need someone to take care of all the details. Our prices are excellent and the personal service lets you focus on your business without worrying about your website.

**You need reliability.** We offer a dedicated IP Address (not shared) for each of our clients and better performance on a consistent basis.

When you host with Pachou, you also receive web development, search engine optimization, technical advice, and the confidence that comes when you work with a software developer who is highly experienced and knowledgeable in software engineering.

## Our Services

Pachou is a full-service web development company creating quality websites and software development since 1999. Our services include:

### **Full-Service Web Hosting**

**Full-Service Websites include:**

- **Free POP3 email for up to 100 mailboxes and 100 aliases with 150M storage per mailbox**
- **Dedicated IP address**

**Hosting may also include:**

- **Premium Exchange email for the first 3 email accounts**
- **Additional premium Exchange mailboxes**
- **Weekly web server backups**
- **Daily web server backups**
- **SSL Certificates**

**Other Services (available for Advanced Websites):**

- **Self-Editing Tool** -- Save on web development by editing text and headings yourself.
- **Free Blog Application** (located on your website)
- **Newsletter, Guest Book, Portfolio, etc.**
- **Admin. Page & Advanced Picture Upload**
- **Database Hosting** -- A database is required for any of our advanced web solutions. We use a shared SQL Server database. SQL Server is highly recommended over local database solutions.
- **Weekly database server backups**

## **Web Development / Website Design**

Pachou offers a full array of web development and web design services, including custom work and ecommerce solutions. A basic website (5 pages or less) can custom designed for the low price of \$300-\$700, which includes an initial one-hour phone/email consultation. All other web development services are billed at an hourly rate. Free estimates for job segments are available.

## **SEO Service**

Pachou has the tools and knowledge necessary to analyze your website and offer recommendations for better ranking in the search engines. Our Search Engine Optimization (SEO) Service generally includes a monthly SEO report. This comprehensive report provides keyword analysis, competition comparison, page analysis, statistics, and much more. Cost of the SEO report is \$375 (\$250 for our web hosting clients.) SEO web development service must include a report generated within the previous 6 months or since the last major change to the website.

## **Freelance Writing / Copy Editing**

Freelance writing and website copy editing for web pages, blog entries, articles, and newsletters is available. This service also includes editing current text for grammar, punctuation, spelling, and content for SEO purposes.

### [Also available...](#)

(For those who do not need a personal webmaster)

## **Domain Names -- SSL Certificates Create-Your-Own Website (template design) Low-Cost Self-Service Hosting**

To order low-cost domains, SSL certificates, and web hosting log on to [www.Pachou.com](http://www.Pachou.com) and click on the link "Order Domain Names" or "Order Web Hosting." Here you can search for available domains, purchase an SSL certificate, create your own website (up to 5 pages), or order self-serve web hosting.

This method of creating a website and self-serve web hosting is not recommended for websites requiring more features or control.
